magnetic candleholder

modulare

Proprio come il misterioso rettile che cambia colore adattandosi all'ambiente, il candelabro Camaleonte si adatta di volta in volta alle esigenze più diverse.

Si tratta infatti di un candelabro modulare: un singolo elemento può vivere di vita propria su una tavola di un romantico tête-à-tête, così come essere abbinato in composizioni di numerosi elementi per le occasioni più importanti.

comodità di trasporto e ricambi

Il candelabro, realizzato in vetro soffiato a bocca, è provvisto di una base con calamita e di una piastra metallica che lo rendono di facile montaggio e smontaggio, anche solo per un giorno! Nasce infatti per l'uso in occasione di eventi, matrimoni e per ambientazioni contract.

versatile

La nostra collezione di candelabri magnetici si può suddividere in tre linee:

linear da un design minimale e pulito

elegance per ambientazioni di un certo spessore

classic una rivitalizzazione delle linee intramontabili

modular

Just like the mysterious reptile that changes colour to match the surrounding environment, Camaleonte candleholder is suitable to meet any kind of need time by time. It is a modular item: one single element may live on its own on a table ready for a romantic dinner, as well as combined with other elements resulting in a perfect touch of décor for the most important events.

convenience of transport and spare parts

Candleholder, made of mouth-blown glass, is fitted with a magnet base and metal plate, making it easy to install and remove, even for just one single day! It has been thought to be used during events, weddings and contract spaces

eclectic

Our collection can be divided into three lines:

linear featured by minimal and clean design

elegance suitable for stylish environments

classic featured by restyled classic design
